Plan Highlights

Features

This is the best form of life assurance for family provision since it enables the Life Assured to pay the premium during the ordinarily vigorous and most productive years of life, relieving him from the necessity of making payments later in life when they might become a burden.

Special Features

With Profits Single Premium policies do not cease to participate in profits after completion of the period for which premium has been paid ,but continue to share in the periodical Bonus Distribution until the death of the Life Assured.

Benefits

Survival Benefits:

The policyholder will receive the sum assured as maturity amount.

Death Benefits:

Premiums are payable one time only. If the life assured survives the stipulated term of the policy , the policy continues in full force, and full sum assured (with or without bonus) will be paid on death.

Suitable for:

Being a limited-payment life assurance policy, this plan is suitable for people of all ages and social groups who wish to protect their families from a financial setback that may occur owing to their demise.
